

Clinical Case Report **(For Collection of Cancerous Tissue)**

ICD-O 3

Cell Carcinoma, papillary urothelial NOS 8130/3

path Carcinoma, papillary transitional NOS 8130/3

Informed Consent

Site Bladder NOS C67.9

I personally informed this patient that a specimen(s) would be collected to be used for research purposes. I reviewed the **RESEARCH SUBJECT INFORMATION AND CONSENT FORM** with the patient and answered any questions the patient had. The patient then signed the consent form as a free and voluntary act. A copy of this informed consent document will be retained at our institution.
