

Clinical Case Report

(For Collection of Cancerous Tissue)

ICD-O-3
path Carcinoma, papillary transitional cell 8130/3
CCF Carcinoma, urothelial NOS 8120/3
Site CCF Bladder NOS C67.9
path Bladder, over-lapping lesion C67.8
QW 4/2/13

Informed Consent

I personally informed this patient that a specimen(s) would be collected to be used for research purposes. I reviewed the **RESEARCH SUBJECT INFORMATION AND CONSENT FORM** with the patient and answered any questions the patient had. The patient then signed the consent form as a free and voluntary act. A copy of this informed consent document will be retained at our institution.

Clinical Information

GENERAL INFORMATION				
Date of Birth (mm/dd/yyyy)	Height	Marital Status	Race	Temperature
Gender	1.58	☐ Single ☒ Married	Vietnamese	38
	Weight	☐ Divorced ☐ Widow	Blood Pressure	Heart Rate
☒ Male ☐ Female	49		141/8	80

HISTORY OF PRESENT ILLNESS

Chief Complaints: blood in urine, pain

Symptoms: Abdominal pain, fatigue, hematuria.

Clinical Findings:

Performance Scale (Karnofsky Score):

- ☐ 100 Asymptomatic
 ☐ 80-90 Symptomatic but Fully Ambulatory
 ☒ 60-70 Symptomatic, in bed less than 50% of day
☐ 40-50 Symptomatic, in bed more than 50% of day, but not bed ridden
 ☐ 20-30 Bed Ridden

CURRENT MEDICATIONS

DIAGNOSTIC STUDIES		
Study	Results	Date
Ultrasound		
X-Ray		
CT		
Endoscopy	A tumor in the bladder	
MRI		
Biopsy		

CLINICAL DIAGNOSIS		
Preoperative Clinical Diagnosis		
urinary bladder cancer		
Location of Suspected Involved Lymph Nodes	Location of Suspected Distant Metastasis	
Clinical Staging		Date of Diagnosis
T2 N0 M0 Stage: II		

Treatment Information

SURGICAL TREATMENT			
Procedure			Date of Procedure
Resection of the bladder			
Primary Tumor			
Organ	Detailed Location	Size	
bladder tumor	overlapping lesion	8 x 6 x 2 cm	
Extension of Tumor			
Lymph Nodes			
Description	Location of Lymph Nodes	# of Lymph Nodes	
Palpable, Non-Dissected Lymph Nodes			
Dissected Lymph Nodes			
Distant Metastasis			
Organ	Detailed Location	Size	
Surgical Staging			
T 2 N 0 M 0		Stage: II	

NEOADJUVANT THERAPY (Chemo, Radiation, Immuno, Hormonal, or Molecular)
